

Northwest Indiana Transit Development District

PROGRESS REPORT

August 2021

AFTER GETTING FEEDBACK FROM OUR PUBLIC ENGAGEMENT SESSIONS the RDA has modified its draft Transit Development District (TDD) boundaries in response to the suggestions offered. Check out the new boundaries on nwitdd.com.

Q&A

Which districts have been updated?

The updated districts are Munster/Dyer, Munster Ridge Road, Hammond Gateway, East

Chicago, Gary Miller and Portage/Ogden Dunes. The Michigan City TDD is in review after its public engagement session. The remaining districts are in various stages of development. As they come into draft form, we will follow the same procedure of holding a public engagement session and then adjust the district boundaries accordingly.
